  - Fire Control: 1D
  - Range: 5-100/300/1km
  - Damage: 4D

Description: Calian aerial battleships were the largest vessels in the Calian Fleet.

Large and complex, they were practically flying cities. Each vessel was equipped with numerous energy cannons and were capable of launching numerous Calian fliers.

Sk'ar attempted to use such a ship to drop an anti-matter bomb on Illyriaqüm.
