# Characters D6 / Owen Lars

Name: Owen Lars
Homeworld: Ator, Tatooine
Born: 52 BBY, Ator
Died: 0 BBY (35:3:5 GrS), Tatooine
Species: Human
Gender: Male
Height: 1.78 meters
Hair color: Brown, later gray
Eye color: Blue
MOVE - 10

DEXTERITY: 2D+2
- Blaster: 6D
- Dodge: 4D+1

PERCEPTION: 2D+2
- Bargain: 5D+1
- Con: 4D+2
- Hide: 3D+1
- Persuasion: 4D+1

KNOWLEDGE: 2D
- Bureaucracy: 3D+1
- Streetwise: 3D+2
- Survival: 5D+2
- Value: 3D+2
- Willpower: 3D

STRENGTH: 2D+2
- Brawling: 4D

MECHANICAL: 2D
- Repulsorlift Operation: 5D

TECHNICAL: 3D+1
- Droid Programming/Repair: 4D+2
- Repulsorlift Repair: 5D+2
- Vaporator Repair: 5D
- First Aid: 3D+2

EQUIPMENT
- CREDITS 1250
- Hunting Blaster (4D), Modest Clothing, Various Droids, V-35 Courier Landspeeder, Tools

FORCE SENSITIVE - N
FORCE POINTS - 1
DARK SIDE POINTS - 0
CHARACTER POINTS - 5

Description: Owen Lars was the son of moisture farmer Cliegg Lars and the stepbrother of Anakin Skywalker. He married Beru Whitesun, and after his father's death, inherited his moisture farm. In 19 BBY, Beru convinced Owen to adopt Anakin's son, Luke Skywalker, as Anakin had turned to the dark side and become the infamous Darth Vader.

Owen and Beru raised their nephew as well as they could, and Owen instilled into Luke the values of his own childhood. Fearful of Luke's potential, and distrustful of the outside galaxy, Owen attempted to keep Luke isolated and ignorant of his true parentage.

Owen was born on the Core World Ator, the homeworld of his birth mother, Aika Lars. Aika died when Owen was very young, so he and his father returned to his father's homeworld of Tatooine. Owen lived with his father Cliegg on their moisture farm. He helped his father buy Shmi Skywalker from Watto. Shortly after freeing her and her son Anakin's protocol droid, C-3PO, Shmi and Cliegg married, making her Owen's stepmother. Shmi often told her new family how much she missed her son Anakin, who had been freed by a Jedi to join the Jedi Order years before.

Over the next few years, Owen met a beautiful girl named Beru Whitesun, and the two fell in love. Beru moved in with Owen and his family and they lived contentedly together. However, tragedy would soon strike when Shmi was kidnapped by Tusken Raiders about a month before the start of the Clone Wars. Organizing a group of thirty other local settlers, Owen and Cliegg set out to find Shmi; however, their attempt was inherently doomed as the Tuskens set a trap. Only four of the settlers made it through, and Cliegg lost one of his legs. Owen built a hover chair for his father to maneuver following this injury.

One month after Shmi's kidnapping, her Jedi son (now Owen's stepbrother), Anakin Skywalker, came to the Lars' moisture farm looking for his mother. Accompanying him was Padmé Amidala. Owen introduced himself and Beru to the guests and Cliegg explained of the Tusken Raider's taking of Shmi. He told Anakin he would do anything to help out the young Jedi, but his injury was too far from healed, and could not have been much of a help. That night Anakin set out to look for Shmi on his own. The next morning, he brought back Shmi's lifeless body, quietly blaming the Larses for being too weak to protect her. A small funeral was organized and soon afterward, Anakin and Padmé left and were allowed to take C-3PO with them.

Owen and Beru married in 21 BBY and took over the moisture farm the next year when Cliegg succumbed to his injuries and passed away. Shortly after the end of the Clone Wars and after Anakin's transformation into Darth Vader, Owen and Beru were contacted by Obi-Wan Kenobi, Anakin's former mentor. Kenobi informed them that Anakin fathered two children (a pair of twins), and his son Luke needed a family. Beru convinced Owen to adopt him, and Kenobi delivered the baby to them shortly afterward. Owen stubbornly kept his distance and his back turned to Kenobi as he handed baby Luke to Beru.

Fearful of having Luke follow Anakin's path, Uncle Owen and Aunt Beru protected their nephew from his past by telling him that his father, rather than being a Jedi Knight, "was a navigator on a spice freighter". Owen also tried to keep him away from the "crazy old hermit," "Ben" Kenobi.

A few years later, Kenobi had found Luke and his friend Windy Marstrap alone in the Jundland

Wastes. The two youths had tried to ease their boredom by riding Windy's pet dewback around in the Wastes. They had been thrown in one of the canyons and had gotten bruised up. By dusk, Luke and Windy still hadn't found their way out of the canyon until they were discovered by Ben Kenobi. After Kenobi guided them back to the Lars farm, Owen told Luke and his friend to go inside so they would be out of earshot, then confronted and berated Kenobi.

The reason for Owen's anger was that Kenobi had attempted to give Anakin's lightsaber to Luke, since he felt that Luke was old enough and should be allowed to have it. Owen refused to allow it because he believed the Jedi path was a destructive one. He told Kenobi he didn't want Luke to make the same mistakes his father did, stating how he felt Anakin should have never left his mother in slavery and gotten involved with the "damned foolish idealistic Jedi crusaders" in the first place. He vehemently told Kenobi to leave and to stay away.

Luke, however, being Anakin's son, had wild dreams for a different and adventurous future. Despite Owen's vague promises that he would sometime be free to live his own life, he always prevented Luke from leaving the isolation and anonymity of life on the planet Tatooine, claiming his importance to the farm. This stance sometimes brought turmoil between their relations as Luke's hopes were never satisfied.

Kenobi continued to watch Luke from a distance, sometimes seeing Luke pilot his T-16 skyhopper very skillfully.

By the time of the Galactic Civil War, extensive exposure to Tatooine's twin suns had prematurely aged his body.

Shortly before the Battle of Yavin, Owen and Luke met with the local Jawa traders, looking for a droid that could speak Bocce. Unknown to Owen, one of the droids was in fact C-3PO—now in gold plating—and his counterpart, astromech droid R2-D2. When Luke found Leia's hidden message inside of R2-D2, he told Owen and Beru that the astromech claimed to belong to an "Obi-Wan" Kenobi. Trying to keep Luke from learning about his father, Owen ordered him to give the droid a memory wipe.

The next morning, Luke left early to find R2-D2, who had run off the night before to find his former "master." Owen and Beru never saw Luke again, for they were killed by Imperial stormtroopers who were looking for R2-D2 on behalf of Owen's stepbrother, Darth Vader, after the droid escaped with the stolen plans for the first Death Star. According to the recollection of stormtrooper Davin Felth, the farmers were killed after Owen spat in the face of the squad's commanding officer, Mod Terrik, they were then each shot with a blaster before their bodies were semi-cremated with a flamethrower. Their execution was ordered by Darth Vader, who watched it via hololink, feeling it was "revenge" for their supposed weakness, and "failure" to defend his mother. It was carried out by the unit under the command of DSS-0956, in order to cover the evidence of their actions.

*Skills and abilities*

Owen Lars was known to be good with blasters. Biggs Darklighter claimed Owen could hold off a whole tribe of Tusken Raiders with only one blaster.
