Name: Dragon-bird
Homeworld: Onderon/Endor

Dexterity: 3D+2
Perception: 2D+2
Strength: 1D+2

Special Abilities

Sharp Teeth: Although not particularly dangerous to human sized targets, Dragon Birds are capable of a nasty bite which does Str+1D damage.

Move: 22
Size: 0.3m long
Orneriness: 1D+2

Description: Dragon-birds or dragon birds were avian predators indigenous to Onderon and Endor. Those of Endor were considered a bad omen by Ewoks. Those of Onderon inspired the appearance of dragon-bird robot drones. The dragon-birds on the two worlds may have been separate species sharing nothing more than a name.
