Description: Porro Dolphe was a pilot in the Royal Naboo Security Forces's Bravo Flight as Bravo Two in 32 BBY.

Dolphe grew up in a small town outside Theed before he decided to do volunteer work as a pilot. He later took part in the attack on the Droid Control Ship during the Naboo Space Battle, which he survived. Porro Dolphe then participated in the celebration outside Theed after the battle.

Ten years later, he was selected by Captain Gregar Typho to escort Senator Padmé Amidala in her flight to Coruscant, which ended in an assassination attempt on her life. Although knocked down by the blast, he was quick to his feet and swiftly established a perimeter around the other survivors.
