Description: The humanoid bounty hunter Rum Sleg spent time in Mos Espa spaceport on the planet Tatooine in the year 32 BBY. While in the spaceport, he passed by a DRK-1 Dark Eye probe droid shortly before attending the Boonta Eve Classic podrace in the Mos Espa Grand Arena. He sat in the arena's stands and cheered for the Dug podracer Sebulba, who ultimately lost to the human racer Anakin Skywalker.

Biography
Rum Sleg was a humanoid male who worked as a bounty hunter during the reign of the Galactic Republic. In the year 32 BBY, Sleg stood and spoke to a human in the streets of the Mos Espa spaceport on the planet Tatooine. He then began walking through the streets and passed a DK-1 Dark Eye probe droid that had been sent out by the Sith apprentice Darth Maul to search for Jedi Master Qui-Gon Jinn and Queen Padmé Amidala of the planet Naboo.

The bounty hunter later attended the Boonta Eve Classic podracing event and sat in the stands at the Mos Espa Grand Arena, where each of the three laps of the race started and ended. Sleg cheered when the Dug podracer Sebulba passed through the arena in the lead after the first lap of the race; however, during the final lap, the Dug crashed and was beaten by the human podracer Anakin Skywalker.

Equipment
While on Tatooine, Rum Sleg wore a painted-skull visor to cover his face, along with a red-and-black suit of armor, including a helmet and a silver backpack. He also carried a blaster pistol holstered on his belt.
