Description: The Geonosian cart was a small cart that was pulled along by an animal, commonly used by the Geonosians that took victims to the Petranaki arena for execution.

History
At least one of these carts was used in 22 BBY, during the attempted execution of Senator Padmé Amidala, Jedi Padawan Anakin Skywalker and Jedi Knight Obi-Wan Kenobi. It was also used, first as a mount, and later as cover in the subsequent battle by both Amidala and Skywalker.
