Special Abilities:

Adaptive Skin: Snivvian can survive in temperature extremes of minus 30 degrees standard, to temperatures up to 45 degrees standard without harm or protective gear. They do wear clothing for cultural reasons. The Snivvian’s tough skin give them +1D armor bonus to resist physical damage.

Story Factors:

Strife-Torn History: The Snivvians never seem to get a break. From the genetic problems with the Blood Code, to the period of slavery by the Thalassians, the Snivvians have undergone hardship after hardship. Now that the Blood Code may have returned, the Snivvians are bracing themselves for more troubles. Despite such adversity (or perhaps because of it), the Snivvians are respected artists and writers.

Blood Code: The genetic flaw that has led to much violence in Snivvian history has also caused the Snivvians to be very distrustful of twins of any species. As families, Snivvian brothers tend to be very distant.

Description: Geezum was a Snivvian male who in 4 ABY was present in the palace of the crime lord Jabba Desilijic Tiure when the Jedi Luke Skywalker killed Jabba's rancor Pateesa. While the Snivvian watched, the crime lord sentenced Skywalker and his allies Han Solo and Chewbacca to death, ordering they be fed to the sarlacc.

Geezum traveled to view the executions on board the sail barge Khetanna, conversing with the Ugnaught Yoxgit and a human guard en route. Upon reaching the pit, Skywalker managed to defeat the guards accompanying him while the slave Leia Organa plunged Geezum and the other passengers of the barge into darkness by closing its shutters. She then killed Jabba, and together with Skywalker, destroyed the barge.

Biography

Dancing and death

The Snivvian male Geezum[1] was present in the palace of the Hutt crime lord[2] Jabba Desilijic Tiure[3] on the planet Tatooine[2] in the year 4 BBY,[4] during a performance of the song "Jedi Rocks" by the Max Rebo Band. The Snivvian sat in one of the throne room's booths with the bounty hunter Amanaman while the band performed for the court, after which Jabba demand it be played again.[2]

The second performance was however interrupted when the enslaved dancer Oola refused the Hutt's advances, causing the crime lord to drop her into the pit beneath the throne room. Many court members then eagerly watched her be devored by Jabba's pet rancor, Pateesa, after which blaster fire in the throne room entry way drew their attention. The source was revealed to be Princess Leia Organa, who was disguised as the bounty hunter Boushh and entered with the Wookiee Chewbacca as her prisoner. After negotiating with Jabba over the bounty on Chewbacca using a thermal detonator, Organa agreed to a price, but was later captured by Jabba herself after freeing the smuggler Han Solo from carbonite.[2]

Prisoners causing problems

He was later present when the Jedi Knight Luke Skywalker killed the criminal's pet rancor,[2] Pateesa,[5] after Jabba tried to feed the Jedi to the beast. Geezum stood in the palace's throne

room as Skywalker was dragged from the rancor's pit before Jabba alongside his Rebel allies Han Solo and Chewbacca, who had been being held in the Hutt's dungeons.[2]

Jabba sentenced the three prisoners to death, declaring they would be fed to the sarlacc that lived in the Dune Sea. Geezum then accompanied Jabba and much of his court onboard the Hutt's personnel[2] sail barge Khetanna[6] to witness the executions. While the barge traveled, Geezum stood at one of its windows conversing with the[2] Ugnaught Yoxgit[1] and one of Jabba's human henchmen. As the trio conversed, the protocol droid C-3PO, who was serving as the Hutt's translator, bumped into the astromech droid R2-D2 in front of them, spilling several of the drinks the astromech had been serving to the barge's passengers.[2]

Chaos at the Great Pit of Carkoon
Upon reaching the Great Pit of Carkoon where the sarlacc dwelt, Geezum stood behind Jabba and his slave Princess Leia Organa while the Hutt offered Skywalker and his allies a final chance to plead for their lives. Before he could be pushed into the pit, the Jedi managed to overpower the guards on the[2] Bantha-II cargo skiff[6] he was being transported on using his lightsaber, which R2 had been secretly carrying for him. Organa used the distraction to close the barge's shutters, plunging Geezum and the other passengers into darkness.[2]

As the Snivvian dashed around the barge in a panic with the other members of the court, Organa strangled Jabba using her chains. Skywalker then managed to board the Khetanna and together with Organa destroyed it before escaping with the rest of his allies.[2]

Personality and traits
Geezum was a sociopathic Snivvian[7] who had fair skin, brown hair and black eyes.[1]

Equipment
While on Tatooine, Geezum wore a white shirt and pants with a brown scarf, gloves and boots. He wore a black belt and an orange Bandolier.[2]
