Description: Toki Tollivar was a Bimm who worked in the Republic Ministry of Commerce during the Great Sith War and was often underestimated due to his small physical appearance. Thus, when his Force sensitivity brought him into consideration for training by the Sith Empire, he seized the opportunity to be trained in the ways of the dark side. By the war's end, Tollivar had only progressed in status to that of a Sith Acolyte, at which time he began his own private campaign of murder across the galaxy.

Tollivar styled himself as a Force-strangling serial killer as he ran amok and capitalized on the diminutive stature he felt so often ridiculed for. The trail of throttled bodies caused Tollivar to eventually settle on Corellia under the alias Kelven Garnatrope, though his appetite for murder was far from sated. Dubbed by the public as the Corellian Strangler, Tollivar fled the planet before authorities could connect him with the murders, purchasing a ride on board the Chancellor Fillorean luxury yacht into the Core Worlds.

Tollivar was discovered several weeks later on the Fillorean hiding amongst a shipload of corpses by Jedi Zayne Carrick and the crew of the Hot Prospect. After attempting to strangle several of the Prospect's crewmembers, Tollivar was found out by Carrick, with whom he engaged in a lightsaber duel. The Sith adept defeated his enemy but was restrained by his own servant droid, K-OB7, and subsequently killed by the Zeltron scientist Demagol, who at the time had been secretly under disguise as Carrick's crew-mate, Mandalorian Crusader Rohlan Dyre.

Personality and traits

Toki Tollivar was a scorned being, angered by those whom he felt stereotyped him by his species' petite size and unassuming appearance, rather than his own knowledge and abilities. He used their underestimations of him to further his own Sith-inspired goals. Tollivar felt that those with power deserved respect without discrimination.

After the Great Sith War, Tollivar displayed a thirst for murder. He found that killing beings brought him temporary satisfaction; upon the death of his first victim, he realized that his need to kill was insatiable, and he embarked on a path that led to a long string of serial murders.

Tollivar was also a dishonest being; he lied about his involvement to his droid upon the discovery of the initial strangled body, and later to the crew of the Hot Prospect with regards to the deaths on board the Chancellor Fillorean. To deceive authorities, Tollivar adopted several aliases, hoping to distance himself from any potential investigation into his murderous activities. When false images of his aliases surfaced in the media, Tollivar did nothing to sway the misdirection of the authorities, instead capitalizing on their ignorance by continuing to kill. Rather than be apprehended, Tollivar fled into space hoping to deaden the trail that inevitably led to him.

Powers and abilities

Toki Tollivar was a Force-sensitive being of considerable strength. As a Sith adept, he was fond of using Force choke to throttle individuals. He was able to project blasts of Force lightning, though not in a capacity sufficient enough to hinder his droid K-OB7 from attempting to subdue him. He was also able to keep his identity as the Corellian Strangler hidden for quite some time through deceptions and prompt exits from the scenes of his various crimes.

Tollivar was proficient with a lightsaber, wielding a diminished shoto-styled weapon with the crimson blade of a Sith. Tollivar possessed a talent for Dun Möch, displayed when he Force-hurled debris at Jedi Zayne Carrick while they dueled on the Chancellor Fillorean. The Bimm Sith was able to defeat Carrick in their contest, though he was overcome by first his droid Kayo, followed by Rohlan Dyre, who destroyed both Tollivar and Kayo with his blaster pistol.
