**Four Arms:** The Codru-Ji have four arms and their brain allows them equal dexterity with all of them, this allows a Codru-Ji character to ignore the first dice of action penalties as they can achieve more actions in a single round.

**Hypersonic Vocabulation:** The Codru-Ji have the ability to both hear and speak in a much wider range of frequencies than a human, their natural language takes advantage of this making it difficult for non Codru-Ji to master. This also allows Codru-Ji to conduct conversations in higher frequencies than humans can hear, and most personal and private conversations take place in

these frequencies.

#### Story Factors:

Two Stage Lifecycle: Codru-Ji are born as six legged canines, and spend their lives until puberty in this form, many other species will mistake a Codru-Ji's young as a pet or other household animal, which may lead to some diplomatic problems.

Coup Abductions: Codru-Ji culture includes the habit of Coup Abductions, where a prominent member of society's children will be kidnapped in exchange for power or money. This is considered to be matter of fact by the Codru-Ji, and other species will find it disturbing to see them take the abduction of a child so casually, but the Codru-Ji are fully aware that these abductions never lead to the child being harmed.
